ABOUT ME

As a Frontend Developer with a strong background in web app design and development using a tech stack HTML,CSS, JavaScript & ReactJs. I am seeking to utilize my knowledge with excellent analytical, technical, and programming skills to excel as a Frontend Developer at a junior level.

EDUCATION

B.E. in Mechanical Engineering
Gujarat Technological University
2019-2022

Diploma in Mechanical Engineering
Institution of Mechanical Engineering
2012-2015

EXPERIENCE

Gindumac India Pvt Ltd
Application Engineer
After undergraduate, I worked for a company that provided CNC sheet metal machinery and Cadcam software services. As an application engineer, I have worked on-site training and troubleshooting for three years. From this journey, I have traveled to major cities in India as well as gained skills in managing time, debugging the problem in software, handling situations and rectifying problems.
